Marble

The Marble texture is an imitation of the finest artwork found in nature. Patterns are adjusted to different levels of colours depth and width.

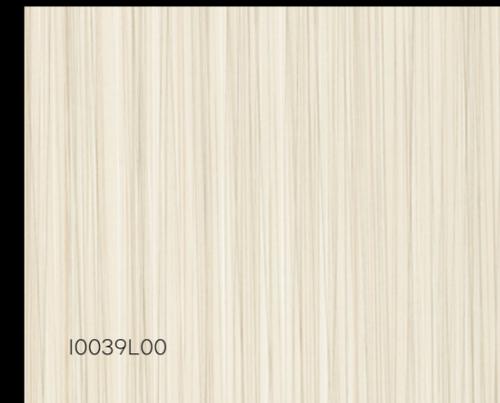

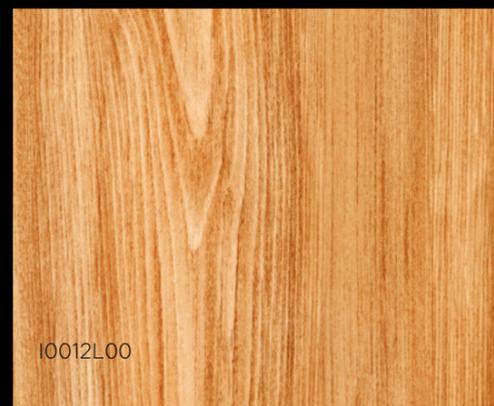

Concrete

Inspired by the urban brickwork that characterises industrial architecture, the concrete texture reflects the simplicity and depth of a concrete wall or troweled plaster. Patterns are adjusted to different levels of colours depth and width.

Wood

The Wood texture has an attractive appearance due to the regularity of the fiber. Patterns are adjusted to different levels of colours depth and width as well as orientation.

Nature

If you need your space to have a Zen feeling which connects people with their natural environment, then Nature has the answer. Nature collection adapts its patterns to your needs as well as different levels of depth, colour and width.

Touch

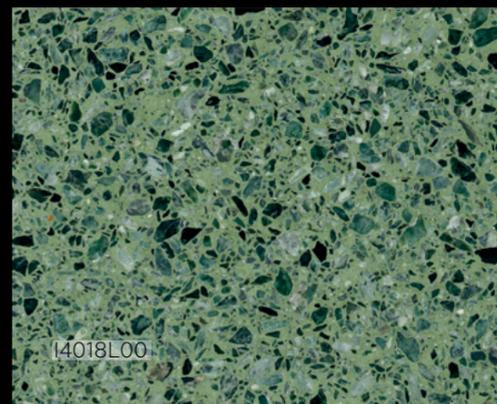

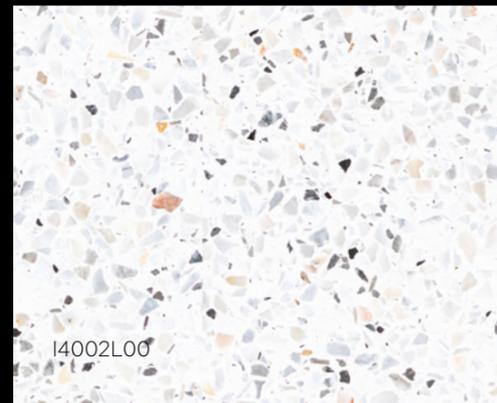

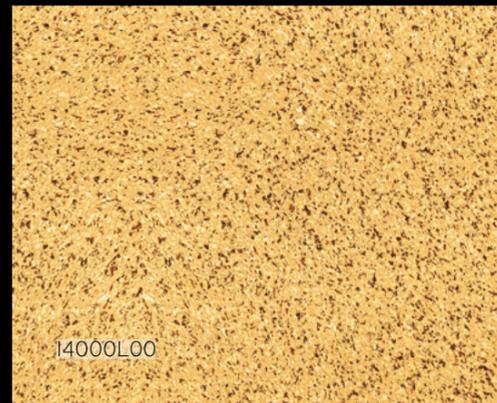

Closer to the sense of touch, where the image of real leather meets animal patterns, the touch collection brings a wild sense of life to surfaces, with leather patterns and animal prints, in different levels of depth, colour and width.

Terazzo

The timeless and instantly recognizable technique that tells stories, both ancient and new, combined with ultimate style.

Ready to match the full range of design needs, with patterns that adapt to different dimensions, textures and colours.

Tiles

One of the oldest decoration forms of art, tiles can add character, especially in kitchens and bathrooms, but also in hallways and utility rooms.

A plethora of patterns that adjust to different levels of depth, width and colours, is the perfect way to add pattern and shape to a space.
